

PLUG & PLAY Kit - Left : STA11992 Rope in option
PLUG & PLAY Kit - Right : STA11991 Rope in option
Crane not included on the kit

A lifting crane must be secured to lift loads with a complete serenity.

This safety requires reinforcements in specific parts allowing a good distribution of effort.

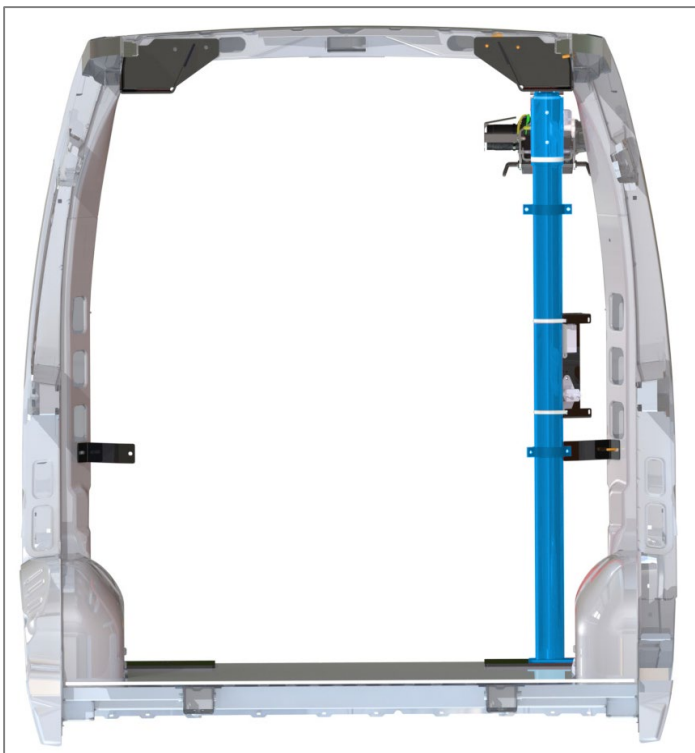

STARTER team has developed the **PLUG & PLAY KIT** that allows you to perfectly set up your lifting crane to the frame of your vehicle.

FEATURES:

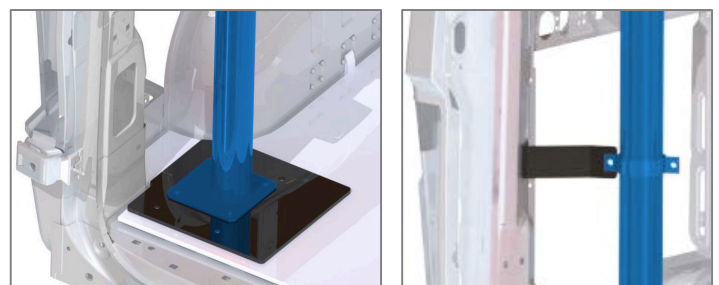

- Fits to the entire **ARKANE** range
- Upper attachment on the frame of the vehicle.
- Intermediate fixing on the reinforcements of the vehicle.
- Lower fixation on the floor of the vehicle.
- Steel parts.
- Black color.
- Kit includes all parts for the set up.

SET UP :

- By yourself.
- By an outfitter.
- In our workshop.

No contractual pictures. Features, dimensions and performances subject to changes without prenotice

For all other performances, consult our design office, which can offer you many options in the case of a particular application.

Your on-board lifting equipment must be subject to an initial check before commissioning by an approved organization, in accordance with article R.233.11.1
